

3 PhD-positions in a joint Polish-German research project

... on "Zeta functions of groups and dynamical systems" are currently advertised, one each at Bielefeld University, the Heinrich-Heine-Universität Düsseldorf and the University of Szczecin. The positions will enable the successful candidates to work towards a doctorate at the respective university, by contributing to the above-mentioned research project, led by Professors Alexander Felshtyn (Szczecin), Benjamin Klopsch (Düsseldorf) and Christopher Voll (Bielefeld).

The project is financed by the Polish-German Funding Initiative "Beethoven 2", funded jointly by the Polish National Science Centre NCN and the German Research Council DFG. We welcome applications until 17 December 2017. Further details can be found at the EMS-Jobs-website [link: <http://tinyurl.com/yd9eyuco>].

Potential candidates interested in the position at the Heinrich-Heine-Universität may contact directly Professor Benjamin Klopsch (klopsch@math.uni-duesseldorf.de).
